

Portable Valve Grinding Machines

The Larslap range of portable industrial valve grinders offered by Kemet are a patented design concept that are a proven solution for on-site valve reconditioning.

Repairing leaking valves in industrial pipelines is a laborious operation involving extended downtime, production losses and substantial unwanted costs. Losses are minimized if valves can be reground in situ, precluding the need to dismantle and remove defective valves from the pipeline. Available in overlapping sizes, these grinders combine unsurpassed versatility with exceptional ease of handling and operation. A combination guaranteed to give these grinders cutting edge performance, whatever the valve location.

These valve grinding machines have unique, lightweight universal clamping system which allows rapid and accurate mounting for grinding valve seats or wedges. Operating checks and replacement of abrasive discs can be carried out without disturbing the assembly. No realignment is necessary when repositioning the grinding head.

Model SH - For gate valves and wedges with flat seats

Valves with flat seats \varnothing 10 - 50mm (0.4" - 2")

Model K & K Universal - For globe, control and safety valves

Valves with flat seats \varnothing 8 - 150 mm (1/4" - 6") and/or angled seats \varnothing 8 - 65 mm (1/4" - 2 1/2")

Model FL - For gate, parallel slide, globe, check, safety and control valves, discs and wedges

Valves with flat Seats \varnothing 50 - 300 mm (2" - 12")

Model FL-H - For gate, globe, check, safety and control valves

Valves with flat seats \varnothing 50 - 200 mm (2" - 8")

Model S - For gate and parallel slide valves, discs and wedges

Valves with flat seats 25 - 100mm (1" - 4")

Model G - For gate, parallel slide, globe, check, safety and control valves, discs and wedges

Valves with flat seats \varnothing 150 - 1300 mm (6" - 52")

Model D - For globe, control and safety valves with flat or angled seats

Valves with flat and angle seats \varnothing 50 - 800mm (2" - 32")

Model C - A portable, easy to mount, cutting, milling and grinding machine. Ideal for globe, safety and control valves

Consumables for valve grinding
